ALLERA A START A STATE OF THE STATE OF TAXABLE OF TAXAB

WEDNESDAY, May 2-P. M. There was rather more activity at the Stock Board this morning, but the general tendency was downward, with no important changes. The harmonizing of the bears has a temporary effect, but when they hold up the market reacts and prices appear, in many cases, to have touched points where parties who have sold out are willing to commente buying again. The outside orders to buy, which had almost entirely ceased, are again appearing, although only to moderate extent. The bear jobbers did not appear anxious to increase their lines, while assuming the appearance of a disposition to sell. At the Second Board the market exhibited a better tone, and nearly every description had an upward tendency. The disposition to buy was quite marked, and there was no pressure of stock on the market for sale. The advance in Panama was the most important, 1441 being bid at the close, against sales at 142, seller sixty, at the morning session. Parific Mail was beavy in the morning but firmer at the afternoon session, closing at 105 bid. The dividend meeting is to be held on the 10th to receive the report of the Committee, which, it is understood, will be 10 \$ cent. Central was quite steady in the morning with moderate sales, but was buoyant in closing transactions at 1 ? cent advance on the lowest price of the day. This stock is the principal point of attack of the bears, and resists with remarkable pertinacity. The traffic of the road in April is not yet announced, but it is understood is largely in advance of April of last year. Reading was fairly active, and very firm at a alight advance on yesterday. In the Western shares there was some irregularity. Galena fell off to 62, under rumors of Mr. Newberry's resignation, and new competitions for business. Mr. Newberry's resigna-tion is in consequence of his intention to sail for Europe in June to remain two or three years, and a telegram from Chicago to-day states that the new difficulties with compe ing roads, have been harmoniously arranged. At the Second Board, these facts being known, the market rapidly improved, and sales were made as high as 63]. Rock Island has been very strong to-day, and improved at the morning Board, in the face of a declining market. At the close at was 65½ bld, against 64½ yesterday. Toledo was also strong at higher rates. The Southern Michigan issues were heavy in opening sales, but at the close were in de mand at 111 and 23. In the Bond market the transactions were not important, and quotations generally heavy. At the close of business after the regular session the market was very strong at the following quotations: Virginia 6s, 921 @931; Missouri 6s, 831 @831; Canton Company, 211 2211; Camberland Coal, 141 2 141; Pacific Mail, 105 2 1054; New-York Central Railroad, 782 278; Erie, 164 2 16; Hudson River, 41 2 Harlem, 121 @121; Harlem Pref., 371 @371; Reading, 422 @421; Michigan Central, 477 @48; Michi-

Galena and Chicago, 63 \$\sigma 63\frac{1}{2}\$; Cleveland and Toledo, 281 \$\sigma 28\frac{1}{2}\$; Chicago and Rock Island, 654 \$\sigma 65\frac{1}{2}\$; Illinois Central 7s, 871 @88. There is nothing of importance doing in foreign bills, and drawers are willing to sell at the quotations of the last packet. The present rates appear to have been established more from a desire to faraish an excuse for the shipment of gold to strengthen cotton-holders on the other side than from any legitimate demand for remittance. We quote Sterling at 109 w 1097; France, 5,15

gan Southern and Northern Indiana, 11; 211; Michi-

gan Southern and Northern Indians Guaranteed, 23 a

231; Panama, 1411-2145; Illinois Central, 59-2591;

Freights to Liverpool: 100 bbls. Lard on private terms, and per steamer, 200 boxes Cheese at 40s., and 100 tes. Beef at 4s. 6d.

The business of the Sub-Treasury was as follows: Receipts, \$38,655-for Customs, \$36,900; Payments, 103,916 40; Balance, \$7,403,827 03.

The traffic of the Illinois Central Railroad for the fourth week in April was:
 Gain
 ⇒13 484

 Total earnings for April, 1880.
 ±192,232

 Total earnings for April, 1859.
 152,271
 Gain..... \$40,011

The Hudson River Railroad earning were: The following is a comparison of the receipts, expenses and net earnings of the Central Railroad of New-Jersey for the three months ending March 31,

of the present year, with the same months of last year: | 1860. | 1859. | Increase. | Increase \$58,119 15 18,747 55

Net earnings..........\$152,446 25 \$118,074 65 \$34,871 60 The Norwich and Worcester earnings for April will thow about \$2,000 gain on April, 1859. The business of the Clearing-House to-day is

\$27,899,000. The Nassau Bank has declared a semiannual dividend of 3| W cent, payable on the 10th inst. The coupons on the second-mortgage bonds of the Central (N. J.) Railroad Co. will be paid at the office of the Company, No. 69 Wall street. The house of E. B. Little & Co. announce their dissolution. The settlement of their affairs progresses slowly, their proposition of one, two, and three years extension not being generally acceptable. Several parties have commenced legal proceedings against them to recover diferences on stock contracts.

In the Money market there is a little hardening of rates on paper, without quotable chauge. Very prime short paper still goes at 5 P cent, but with difficulty. The range is 5 254 for short, and 54 264 for long. On call the supply of money is still abundant at 5 26 W cent, The shipment of specie on Saturday will be probably three quarters of a million to a million of dollars.

The following table shows the condition of the Banks in the four leading cities:
 Leans.
 Specie. Circulat'n. Deposits.
Phila. April 20. \$27.571.092 \$5.453.470 \$5.037.846 \$15.529.831
Bostes, May L. 61.225,600 \$6.318,000 \$6.903,000 \$20,196,000

N. York, Apl. 28 127,085,687 23,279 809 2,749,648 81,815,437 N. Ori v. Apl. 21. 22,212,394 12,284,099 13,331,924 19,408,902 Total......\$208,128,663 \$47,385,878 \$21,161,818 \$183,050,230 Last week.... 259,453,082 47,193,233 31,735,683 138,725,549 Last year \$235,015,148 \$55,526,217 \$30,703,890 \$153,575,629 The following are the Currency and Specie quotations for the week, corrected for us from the rates curreut at the Banking Office of Messre. Thompson Brothers:

Market so unsettled we omit quotations.

On Philadelphia 1 On Chicago.
On Raidimore 1.5 On St. Louis.
On Boston. 1.5 On Detroit.
On Cincincati 1 On New-Orloans
Bank of England Notes 2 4 36
Bank of France 2 Franc. 13 Mexican Dollars. \$1 of English Silver. \$4 % of \$5 Spanish Dollars. 1 10 Species. 1 (6 Free Franc Pieces. 36 Old Amer. Haif Dollars. 1 04 French Crowns. 1 10 Old Am. Quarter Dollars. 1 05 German Crowns. 1 06 Spanish Quarters. 22

00 Spanish Quarters, each. 23 71 Spanish ith and 1-10th, 10 per oz. 127 The advices from Lake Superior in regard to the yield of copper are quite favorable. The March yield

of the Mipresota is 1401 tuns, and the Reckland 42 tuns. From the Isle Royal we hear that the April yield will exceed 40 tnns, which is in advance of the expectations of the managers. This pays the expenses of the mine and leaves a considerable surplus for dividends. This stock has risen considerably in Boston recently, under the more favorable advices from the Lake. The Providence Post says that on Saturday last

Daniel C. Kenyon, the defaulting cashier of the Rhode Island Exchange Bank, was sentenced to eight years imprisonment in the State Prison, by the Court of Common Pleas (Judge Shearman). He has not yet been committed, but remains in the custody of the Sheriff of Kent County, in Greenwich Jail. All the Philadelphia banks, with the exception of the

Bank of North America, declared the semi-annual dividends on the 1st inst. Annexed is a list of the banks, with the amount of their capital, and the rate of divi-

The average of dividends this year is a little less than 4} P cent on the whole amount of capital, a falling off from the average of May, 1859.

from the average of May, 1859.

The New-Oricans Picayuse of Saturday last reports:

"The exchange market opened under a general depression, and for a day or two business progressed as at the close of the previous week. A reaction followed, however, influenced by advices of higher rates at New-York, and increasing stringency in the London at New-York, and increasing stringency in the London money market, and the subsequent movement disclosed a uniformly active demand, with a steady advance in prices. But, owing to the restricted character of offerings, sales have not materially increased, and the market closed buoyant at the subjoined quotations: Clear Sterling bills, 108\frac{1}{2}\pi 108\frac{1}{2}, and 108\frac{1}{2}\text{ for exceptional signatures. Bills with shipping documents attached, 107\frac{1}{2}\text{ 40 dollar. Sixty day bills on New-York, & s. 1\pi 1\frac{1}{2}\text{ and } \frac{1}{2}\text{ 4 dollar. Sixty day bills on New-York, & s. 1\pi 1\frac{1}{2}\text{ and } \frac{1}{2}\text{ 4 cent premium."}

The Madison (Wis) Argus says: The Madion (Wis) Argus says:

"The number of mortgages of farms to railroad companies in the State is 4,500, the average of the mortgages at \$1,200, and the total amount \$5,625,000—more rather than less. Cases involving the validity of these mortgages have been argued before the Supreme Court, and are awaiting its decision. Of course, a decision is looked for with the ut nost interest, for nothing of equal importance has ever been before the Court. The decision will lift this enormous incumbrance from the homesteads of the State, or will confirm it there, be removed in a great majority of the cases only by to be removed in a great majority of the cases only by the sacrifice of the property of the incumbent."

N. Y. Wholesale Prices of Country Produce.

FORTHE WERK RNDING WEDNESDAY, MAY 2, 1860.
[Reported exclusively for The New York Trinums, by Draw & Franch.]
NOTICE TO CONSIGNORS OF FARM PRODUCE.—Put everything in nest order. Mank plain, indelible directions on every package.

in neat order. Mark plain, indelible directions on every package, including weight, with tare, count, and name of articles. Also tack a bill of particulars inside of one package marked "Bill," and slways send one by mall with notice when and how things are forwarded.

CONSISSIONS.—For selling Berries, Fruits, &c., where packages are futuned, and one small lots of stud, 10 P cent. Other Farm Produce generally, 5 P cent.

Quoratrions are for sales of good Produce, in good order, at wholesale, such as Farmers realize, and not Jobbers' or Speculators' prices.

NEW-JERSEY ITEMS.

THE MYSTERIOUS MURDER OF A FEMALE-MRS. RICHARDSON FURTHER IDENTIFIED .- The body of the woman who was found murdered at the York street lock has been further identified by four persons as that of Mrs. Ada Richardson. On Tuesday evening, the proprietor of the Lafarge House, accompanied by his book-keeper and bar-tender, called at Dr. Quidor's house during his absence, and desired to view the head. Upon seeing it, they at once positively identified it. The proprietor of the lotel stated, however, that Mrs. Richardson entered her name on the books as Mrs. Newton. He said, also, that he could bring a number of ladies from his house who would be able to identify her. A young gentleman from Boston called yesterday, and, after viewing the head, said that it resembled, in every respect, that of Ada Richardson. He had known her for two years in Boston, having seen her almost every day in the streets, and that she was well known there. It will be recollected that the detectives, in tracing up the affair, found Mrs. Richardson's name booked on the steamship Cahawba for New-Orleans on the 12th of January last. The two barrels of pitch were missed between Saturday, the 12th, and the Monday following. Further efforts are to be made, in the hope of ferreting out the perpetrators of the crime, in order to bring them to justice.

FIREMEN'S VISIT .- The members of Friendship Hock and Ladder Company No. 12 of this city, have decided to visit Newark, N. J., with their apparatus on the occasion of the triennial parade of the Fire Department of that city, on the 13th of June. They will be the guests of Crockett Hook & Ladder Company No. 2 of Newark, whom they received and entertained at the last parade of the Fire Department of this city.

THE FIRE AND LOSS OF LIFE AT ORANGE,-The inquest on the bodies of Mrs. Hobson, her three chilinquest on the bodies of Mrs. Hobson, her three children, and a girl, 10 years of age, daughter of Patrick Burk, was held by Coroner Benjamin on Toesday.

Jonathan Hobson, the husband, who was arrested on Monday night, on suspicion of having set the premises on fire, testified that he, together with his wife and aix children, occupied the house that was burned, [the first story was occupied by him as a blacksmith shop], his wife, two sons. Jonathan and William, and daughter Isabelia, were burned, witness was up at Patrick Owens's, in Centre street, at the time the fire broke out, and when he got heme the house was all in a bixer; after looking at the fire, he can balf-way to Bloomfield and then to Newark, he ran balf-way to Bloomfield and then to Newark, he ran balf-way to Bloomfield and then to Newark, he ran balf-way to Bloomfield and then to Newark, he ran balf-way to Bloomfield and then to Newark, he ran balf-way are dead to that the avoing; he had been at work blacksmithing that day, and had a fire built on the forgs.

The Jury found a wedfut that the show-manned persons came to their death by being burned in the fire in question, the origin of which is to them unknown.

Taken In.—On Tue-day evening, a young follow named Patrick McCall re-dding in New-York came over to Jersey City and falling in with a party of young men, he spent several hours with them in carousal. In consequence of the rain one of the party, James Painter, invited the stranger to spend the night with him. Instead of taking McCall to his house, he led him to an cut-of-the-way place where it is alleged he succeeded in stealing his watch. McCall save notice of his loss to Officer Smith who took Painter into custody, and found the watch in his possession. The accused was held for examination.

POLICE ARRESTS - Chief of Police Marians of Jer Police Arrests — Chief of Police Marians of Jersey City, reports that for the three months ending May 1, there were 400 persons arrested on the following charges: Vagrancy, 9; drunkenness and vagrancy, 30; drunkenness, 110; drunk and cisorderly, 121; larceny, 25; grand larceny, 3; entering house with intent to steal, 3; assentt, 2; assentt and battery. 19; threatening life, 4; wife beating, 7; destroying property, 9; violating city ordinances, 8; genubling, 11; assenting officers, 1; fighting, 18; insanity, 8; keeping disorderly houre, 1; suspicion of stealing, 1; murder on the high seas, 2; passing counterfeit money, 2; filleral voting, 1. Nativity: United States, 7; England 22; Ireland, 260; Scotland, 8; Germany, 22; other countries, 5.

GERMAN REPUBLICAN CONVENTION—A German Republican Convention of the State of New-Jersey, was held at Newark on Tuesday afteracon. Dr. G. Stat.—was appointed President, and Dr. F. Ill, Secretary. At interchange of views, Dr. Louis Greiner, Rochus : A. Gastner, were appointed delegates to the German Republican Convention at Chicago, on May 14.

CITY ITEMS.

THE STORM.-We had a high old north-easterly storm on Tueeday night, and during the greater part of vesterday, the wind blowing a gale. We have heard of but very few disasters, and those of a light charac ter. The schooner Dr. Kane, from Jacksonville, lying at Quarantine, dragged her anchors yesterday morning about 3 o'clock, and went ashore on the beach at Clifton, S. I. She can be got off with the assistance of a steam tug, probably without damage. The re maining versels anchored at Quarantine and in the North River have most of them dragged, but without damage. The steamship Alabama, Captain Schenck, which arrived vesterday afternoon from Savannah, experienced throughout the entire passage heavy northwest to north-east gales.

THE NEW-YORK FAST WOMEN .- Among thes warms of male and female adventucers who lead lives compact of subtlety and recklessness, and are drawn to great cities by a love of luxury and by the surer field there afforded for a campaign against society at large, the most subtle and dangerous of all would seem to be hat arch adventuress-the modern Fast Woman. Her prototype existed ages since, as long ago as when Samon bartered everything for Deldah; or, later, when

"Thats, like another Helen, fired another Troy." You can trace her down to latter times, through all historical fact and fiction, finding her likeness in many a comedy of Molicre, in many a novel of Fielding, or print of William Hogarth. But it is in the exciting and fortunemaking modern American life that she has more fully developed her operations, gaining, at pleasure, the en tree to our changeful and not over scrupulous upper circles, and having her own wicked say about half of our real life tragedy and farce. Here was the body of a murdered woman, found

floating in the Jersey City docks about a fortnight since. Her head, preserved in spirits, after days of mystery, is at last identified by men, to whom, more than to the passing crowd, it must seem a dreadfal eight. For those features, now foul and ghastly enough, to be sure, not long ago were a portion of their several daily lives; not long ago those eyes, now staring through muddy impurity," looked with the emblance of love into their own. For she was the awful wife of one, whom she deserted to lead the dashing life of an American fast woman. Becoming accomplished in this life, she seized the other in her toils: took charge of his body, character, and purse; debanched the first, beclouded the second, scattered recklessly the contents of the third. She shifted he abode, we are told, from place to place. She lived at her victim's expense, successively, at the Brandreth House, at the St. Denis Hotel, at a doctor's in Astor place, at the St. Jullien Hotel, at the Lafarge House, at more than one private boarding-house. All this within two years. And when her provider saw through the flimsy veil of her affec-tion for him, she still maintained her extravagance playing upon his terror of exposure as skillfully as she had before played upon his yielding folly. She spent \$20 000 of this ore man's money in two years. During all this time she had other visitors, doubtless other vic tims. How many she has ruined He only knows who has at last called her to her account. Such was the life, and such the end, of one modern "fast woman." Well might the man we speak of, when asked to identify these shapeless features, do so at his first glance,

and shudderingly turn away!

It is only now and then that the career and terrible influence of the Fast Woman are thus impressively set before the public. An act of violence is committed, a bank forger rains his family and bimself, a broker comes to grief, and to the story of his wicked excesses, there is the invariable fast-woman accompaniment.

She does not share the criminal's trial and conviction, however, and the world's interest in her soon passes

moment, at her method and appearance. The Fest Woman is by no means a common hariot. In nine cases out of ten she has never walked the streets, nor boarded in a house of bad repute. Only once in a while one of the vulgar sisterhood rises, by superior shrewdness and accomplishments to the ranks of the demi-monde. The Fast Woman affects the private boarding-house. But the hotel is the p'ace to which are gains unquestioned access, where she lives most at her sace, and is enabled (in her own language) o bag the most game. And it is owing, first of all, to the wretched, conglomerate, American hotel sys-

tem that fast women of late abound in such numbers,

and are so dangerous to society.

There is always a mystery hanging about the Fast Weman's antecedents. One thing is certain, though found on every New York square, she is rarely a New Yorker by birth. Few city girls, who have the secomplishments recessary to render a fast woman's career successful, enter upon a fast woman's life. She comes to us after an apprenticechip in Boston or Philadelphis, and she probably went to those cities from the country long before. But no one city, not even New-York, can detain her long. Her genus travel from ep at to spot. A placer failing them in Boston, they go "prespecting" to other towns. From the Revere, where their last arrangement was "played out," they come to the St. Nicholas to see " what they can make. And in the Summer they go in throngs from one watering place to another. Generally two or three units their forces for the Summer campaign. Not unfrequently one accompanies a genteel looking sporting man as his sister, while two others figure as consins or family friends. Together, they are a formidable set. Mysterious as are the Fast Woman's antecedents, her

presents, except in the assumed Summer disguise re-

erred to, are still more so. She comes to the "respect-

able" private boarding-house a most always as a mar-

ried woman. Unfortunately her husband's business is

of a nature that keeps him traveling. He is the collector and general agent for some commercial firm, or he is engaged in buying flour at the West, or he is sojourning in Europe. The California story of the husband in successful San Francisco business, and of remittances always expected, is about played out. The sobriquet of "California widow" provokes suspicion at the outset. Not a few fast women hunt in couples; one who has passed through years of atrocious experience united her wiliness to the beauty and youth of another new to the trade, and the two, as mother and daughter, or more frequently aunt and nicce, casily locate themselves in any boarding-house they choose. Once settled down in a new place, the Fast Woman's method is simple. It is true that she alternates, through up, between stages of magnificence and squalor. Rarely saving her extortionate gains, she is frequently unable to psy her board, or buy her clothing, when fairly shaken off by an outraged victim. But suppose her in funds, and just arrived on new ground. She has ber qualities, to begin with. She is a woman of pas sion, is handrome, dresses with the usual good or bad taste of moneyed American females, sings a little, plays a little, dances a great deal. Is quiet, and behaves herrelf. But, Meadames Boarding-house keepers, you can always tell her by one sign. Before she has been with your week, she will be equainted with every man in the house who is open to attack—be he lawyer, broker, merchant, or merchant's clerk—and will know very few, if any, of your lady inmates. The latter, with their finer female instincts, will find her out, at any rate to their own satisfaction. By and by, perhaps, though very quiet and compan-ionless at first, she will have many gen tlemen visitors. Perhaps you will then recoilect that when she applied for board, she referred you only to gentlemen-and bighly respectable gentlemen they were, too-for information as to her means and character. Now, if all these things are in combination, you may be wronging an innocent female is doing what we say you have a right to do-that is, in strongy suspecting your fascinating and usprotected indy boarder to be a Fast Woman, and, in keeping a very close watch upon her movements-in expecting sooner or later, to hear of her factening herself upon some ellow with more money than brains-to hear of her iving in great splendor at some hotel-to hear of her name vilely exposed in connection with some case of rand and discipation—to hear, sooner or later—of an evil ending and an uncared-for grave.

Much remains to say; but here we must quit the subject. If the Fast Woman lives through all her reckless dissipation, through all the sloughs she is ever in from the vengeance or desperation of her victims, to a period past the bloom of youth, when she can of herself n men no longer, she may still gain a vile subsistence by linking her formnes, as has been said above, to those of some younger adventurers. Or she may degenerate keepership of some houses supported by the lusts of men. But, in the one case and in the other, it is a fearful retribution that the Fast Woman incurs for the brief triumphs of a profligate youth.

BULL's HEAD .- All the bullocks, with perhaps a few exceptions, reported for sale in Forty-fourth street yes terday and the day before, were sold out, at just about the rates current the week previous; for the greater portion, the prices were equivalent to 829c. net pound, and 91 a 10c. for the very tiptop quality. Full particulars will be found under the proper head of our cattle market. It will also be seen that the increase of supplies for the month of April, over April, 1859, has been very large-quite large enough to account for the great falling off in price.

PREPARATIONS FOR RECEIVING THE JAPANESE .-The Lelands, who are to entertain them in behalf of the city, have resolved to devote to the Japanese Embassy the whole of the first floor of the Metropolitan Hotel, and 75 rooms, including parlors, will be placed at their sole disposition. These apartments will be arranged with special reference to Japanese household customs, and supplied with all the conveniences peculiar to Japanese residences of the first-class, so far as circumstances will allow.

THE NEW PRODUCE EXCHANGE.-The stock requisite for the new Produce Exchange, amounting to \$200,000 has been subscribed, and the large warehouses now occupied by Sackett, Belcher & Co., the grocers extending from Pearl to Water street, on Whitehall, have been purchased by the new Company, and the buildings will be immediately remodeled. of the stockholders takes place to-day. Messrs. Sack ett, Belcher & Co., for many years a fixture in that locality, are going as far up as the Park, among other ending grocery houses.

THE LATE MR. WOODBUFF .- The merchants on the Exchange, held a meeting after business hours on Wednesday, for the purpose of taking action in reference to the decease of J. O. Woodruff, esq. Resolu tions of respect to his memory were passed, and it was determined that the provision trade would attend his

Mr. John Wise, the aeronaut, speaks very favorably of his new invention, the small model of which has only thus far been made. It is of more importance he save to the condition of navigating the air than any other accession it has lately received. It claims to give the balloon a rodder and keel, so to speak, when sailing over or near the sea, and indesigned to combine the art of kedging, steering, and anchoring the balloon when within cable's length of the water. This invention is by Mr. Gage. As it takes only very little mency to test its value, and the inventor claims the most stupendous results in store in crossing seas, it should receive a practical trial.

ALDERMANIC CONTESTED SEAT - This matter was finally brought to an end yesterday by the non-appearsace of Mr. Mitchell, the contestant, and his counsel,

before the Committee having in charge the investigation. Mr. Russell and his counsel were present. The Committee stated that they would report at some future time, and adjourned sine dic-

THREE DAYS LATER FROM ENROPE

But she is everywhere and busily present in American cities, and in New-York most of all. Look, for a The steamship Adriatic has already 180 names on her passenger-list for her next trip on the 2d June. When hast spoken on her present trip, she had averaged 12; miles per hour from the time of starting.

GEOGRAPHICAL .- The annual meeting of the American Geographical and Statistical Society, takes place at their rooms in Clinton Hall, this evening. Officers and members of the Council for three years, are to be elected. Dr. Henry B. Millard, who has given much atudy to the diseases of the respiratory organs, will read a paper out the "Statistics of Consumption."

FATAL ACCIDENTS .- On Thesday afternoon a man, sur posed to be named Richard Granfield, was engaged in slushing down the masts of the schooner Sea Flower, Capt. Clark, then on the ways at Clark & Rich's shipyard at Greenwich, Conn. While engaged in this work, standing on the triangle, a knot slipped through a hole, and one plank fell out, precipitating Greenfield to the deck, killing him instantly. He struck upon his arm, which was broken, and the bone of which penetrated the deck, remaining so firmly fixed that it had to be sawed off.

This accident was caused by the manner of fastening the triangle, which was held by a knot, instead of being lashed, as it is ordinarily secured. An inquest was held by Mr. John Dayton. Greenfield was shipped at Providence a short time since, and but little was known of him except that he was a quiet and sober

Mr. Cooper, of the firm of Cooper & Smith of Th rty-first street, while at Fort Washington yesterday, ran to catch the Hudson River train, and was accidentally knocked down and run over by the engine, the wheels crushing both his legs. He was brought to the city in a dying condition.

ANOTHER FUGITIVE MURDERER IN CUSTODY .--Thomas Pryor, an Irish laborer, was arrested in West Br adway, on Tuesday, charged with having caused the death of John Kennedy at Peekskill. Last Saturday evening the two men got into a quarrel at a saloon in Peckekill, when Payor stabbed his antagonist in the breast so severely that death ensued on the following Monday. The guilty man fled to this city immediately after the affray, but was discovered in the street on Tuesday by a gentleman who had been searching for him. On attempting to arrest the fugitive the gentleman was knocked down by Pryor, who immediately ran away. Officer Drucker of the Third Precinct, seeing the affray, pureued the fugitive, and finally cap-tured him. He has been sent back to Peekskill to await his trial for homicide.

AN UNPLEASANT DRAFT .- Officer McDonough of the Second Ward on Tuesday arrested a lad named Thomas J. Pittman, charged with having robbed his employer, John H. Lester of No. 57 Pearl street, Brooklyn. It appears that your g Pittman learned that Mr. Lester was expecting by mail a draft for \$450, and he went to the Post Office, obtained the letter, and abstracted the draft. He immediately came to New-York, and attempted to dispose of it to E. F. Frost, in South street, but the lad being suspected, be was taken into custody. The facts of the robbery were subsequently ascertained, and Justice Welsh committed the accessed to answer a charge of grand larceny.

COMMITTED FOR EXAMINATION .- Daniel W. Lowie, the waiter who was recently arrested by Detectives Davoe and Samson, on suspicion of his having been concerned in causing the death of William H. Lyons, was on Tuesday committed to the Tombs, by Coroner Jackman, for examination. The particulars of the case and the admissions of the prisoner have already been published in THE TRIBUSE. An examination will be had this morning, before Justice Welsh who is magistrate at the Tombs during the illness of Justice Connolly. The lady who was in company with deceased has not been found.

ARREST FOR FALSE PRETENSES -D. B. Peters was formerly Secretary of the Second-Avenue Rail-road, and as such often made purchases for the Company on credit. For some reason he was recently discharged. It is now alleged that, since his dismissa from the Company's service, he has been in the habit of using their name to obtain credit. Wm. R. Jack sen, manufacturer of iron railings in Centre street, alleger that he was swindled out of \$16 by these false representations, and upon his complaint Detective Farley took the accused into custody. He was taken before Justice Welsh on Tuesday morning, and committed for examination.

THE NORTH SHORE BOATS .- The north shore (States Island) ferry boa's had a hard time of it on Tuesday morning in the gale. The Huguenot broke down near Pactoryville on her 8 o'clock trip up, and lay to for some time to repair damages. The Naushon, put on temporarily in place of the Taminend, the opposition best, halled the Haguenot as she passed, and offered assistance, which, however, was declined, as the damage was only one of those casualties to which the Staten Island boats are so accustomed that they know how to repair them readily. The Staten Islander was less fortunate. On her 8j trip from the city, she broke down hopelessly near Governor's Island, and was compelled to come to anchor. The Southfield took off her passengers, and left her till aid could be sent to tow her into port. The boats, it is supposed, will soon be put in their usual condition, and run on the usual terms of " wind and weather permitting."

THE STONINGTON LINE -The steamboate of the Stonington line for Boston will leave every evening at 6 o'clock hereafter, from Pier No. 18, foot of Courtlandt street, North River.

A POISONED FAMILY .- We published some time since an account of the accidental poisoning of the family of Sylvester Harper, in Fifty-ninth street. The whole family, consisting of six or eight persons, were taken suddenly sick, and finally Robert Harper, aged 7 years, died in consequence, after suffering for several days. The reet of the family eventually recovered. Coroner Jackman yesterday concluded the inquest on the body, when Dr. Finnel made known the result of the chemical analysis to which he had subjected the stomach and intestines of the unfortunate lad. He was unable to detect any trace of poison, but gave it his opinion that death was caused by an irritation of the stomach and intestines, which irritation was in consequence of some poisonous substance having passed through them. The Jury rendered a verdict in accordance with his opinion, but were unable to determise is what manner it had been taken. It is supposed that the family had been thus nearly sacrificed by partaking of adulterated food.

TICKET SWINDLING .- The last Legislature made an

attempt to establish a law which should effectually put an end to that long standing imposition upon strangers which has been so successfully practiced here for years past-ticket swinding. They passed an act making i a misdemeanor for any person, except a regularly an-thorized agent of a passenger carrying company, to sell passage tickets for any vessel running out of the ports of this State. The act further provided that every person representing himself to be the agent of any company must have a written appointment to that effect from the proper head of the company, designating for what vessels he was authorized to sell tickets, and also giving the street and number of the agent's place of business. The act also considers it a mi-demeanor for any person, be he an agent or not, to charge more for a passage ticket than is charged by the company itself. A violation of any of the provisions of this act subjects the person so violating it to imprisonment for not less then eix menths nor more than two years. The police ere further directed to treat all offices where tickets are unlawfully sold as disorderly houses, to arrest all per-

sons found within them, and to prefer complaints and proceed against them the same as against any other disorderly house.

The first case which has yet been brought before the Courts under the new law is that of James Duffy, one of the most notorious ticket-swindlers in this city, and who has been arrested innumerable times for that offense.

On Saturday last Mr. John James, a Methodist min ister from Missouri, being desirous of securing passage for himself, his wife, and three children to California, was induced to call at Duffy's office, No. 109 West. was nauced to call at Duffy's office, No. 109 West street. Here he found Duffy and a man' named Chas. Gilmour, who were exceedingly anxious to sell him tickets. They showed him a diagram of the second cabin accommodations of the steamer which was announced as the next to sail for California, and he had been also also be a constant and the constant and the second of the second o nounced as the next to sail for California, and as finally selected his quarters, paying \$600 for three full fares. He subsequently ascertained that the swindlers had palmed off upon him three tickets entitling him and his family "to the privileges of the steerage, with steerage fare." Had he bought steerage tickets of the Company they would have cost him \$350, so that Duffy and Gilmour made \$250 clear gain out of the reverend gentleman. Mr. James at once laid a complaint us ainst the awindlers before Justice Welsh, who issued a warrant for their apprehension; but the rascals had fied to Jersey, where they were without the pale of the law. Mr. James then made a supple-mentary affidavit denourcing Duffy's house as a disorderly one, and coming within the province of the new law. Thereupon Capt. Hart of the Twentysixth Precinct was directed to make a descent upon the premises immediately. He accordingly proceeded to the office yesterday afternoon with several mea, when he found it closed up entirely, and all the birds flown. A lookeut will be kept for Duffy and Gilmour. and they will be required to answer the complaint as soon as they may return. "A determined effort will hereafter be made to break up the nefarious business so say the magistrates.

A BOOTBLACK'S WINDFALL .- Michael Crowley, a youthful bootblack, while in the act of sallying forth from his dry-goods box lodgings in Cherry street, a morning or two since, encountered an unlucky wind fall. Andrew Brown, who resides at No. 188 Cherry street, was slowly sauntering past Michael's kennel, when he dropped his wallet, containing \$50 in gold. Michael waited till the pensive Andrew had reached a respectful distance, when he came down upon the wal-let like a bird of prey, and hastily slipped it into his pocket. Congratulating himself hugely upon his good fortupe, he hastened to invest his treasure in a variety of gewgaws, and soon after presented himself among his astonished companions, with a handsome gold watch-chain daugling from one of his ragged suspen-ders. The eye of an ever-vigilant policeman was soon upon him, and Michael was compeled to account for his possession of so valuable a trinklet. Michael, thereupon, confessed all about finding the pocketbook, and gave up \$25 of the money which he still retained The lad was taken before Justice Brennan, who committed him to answer a charge of grand larceny.

THE TIME-BALL .- On Monday the time ball over the Custom-House was struck down several times by the electric current communicated to its machinery from Albany. It has, however, not yet been set in daily operation, and will not be for several days, as it is considered necessary first to arrange a system of signals for the use of the operators at each end of the

FIGHT ON BOARD A SHIP .- A number of bourding-house runners went on board the ebip Giatane, lying at the foot of Rutgers street, in the East River, and tried to induce some of the sailors to go ashore with them. As the hands concluded to stick by the ship, the runners became exasperated, and commenced an assault upon them. During the fight which ensued, two of the sailors, named Marshal Rober and Matthew Gracie, were seriously stabbed and badly beaten. The runners then escaped to the shore, and were not seen again till yesterday afternoon, when Officer De Cordy, of the Seventh Precinct, arrested William Waldron, a runner, on suspicion of being one of the boarding party. He was identified by several of the sailors, and Justice Brangan committed him to answer.

TRAP-BLOCK PAVEMENTS.—The following contracts for laying trap-block pavements were awarded yester-day by the Commissioners of the Croton Board:
In State street, awarded to Hugh Humes, at \$2.06 per square

In Thirty-fifth street, awarded to Wm. A. Cummings, at \$8 18 oer square yard.
In Reade street, awarded to J. B. & D. C. Culver, at \$1.00 per in Chambers street, awarded to Wm. A. Cummings, at \$1.32 per square yard. In Amity street, awarded to Wm. A. Cummings, at \$100 per

A DELICATE OPERATION .- One of the most delicate manipulations in engineering is about to be performe in connection with the lowering of the west supply pipe of the Croten Aqueduct, which russ through Eighth avenue. This pipe is 30 inches in diameter. It is to be lowered to a depth of ten feet below its present position, without the water being stopped. In the up-per part of the avenue, the work has already commenced. The earth is being excavated from over and under the pipe, and prope are to be introduced until the whole excavation of 11 miles shall have been completed. Then it will be lowered to its bed gradually, as to prevent the curve at any part of the pipe from breaking. It appears that the water cannot be shut ff from the pipe, owing to the fact that a large portion of the western district of the city is dependent on it for supply. If the pipe should break in the course of the operation, the disaster would be terrible in its effects upon the adjacent property, while the supply would be out off most effectually.

Accidents and Inquests.—Coroner Schirmer held an inquest on Tuesday, at No. 685 Ninth avenue, on the bedy of Eliza itecker, ared two years, who was accidentally killed by being run over by a car on the Ninth-Avenue Railroad, near the correr of Fifty-second atrect. The child was playing on that track as the car approached, when a lady in a neighbering house called to the driver to step the car. This diverted the attention of the driver, so that, before he was sware of her presence, the child was nucker the car. The July rendered a verdict of "Accidental death," and acquitted the driver of all blame... The same Coroner held an inquest on Tuesday on the body of Joseph Ashman an aged man, who committed suicide on the morning of that day, at No. 168 Hester street, by cutting his throat wilk a rozor. He has been sick for a long time, and it is thought that he was partially deranged as the time.

SALES OF REAL ESTATE —By E. H. Ludlow & Co., May 2, lot No. 23 Baxter street, \$4,500; lot No. 35 Baxter street, \$4,600; lot No. Fifty-fift street, new Sixth avenue, \$61,610; lot on Sixth avenue, between Fifty-seventh and Fifty-ighth streets, \$5,300.

Mesars. J. & J. C. Couroy, No. 65 Fulton street, was entered a night or two since, and robbed of a valuable lot of fishing tackle, cuttery, and sporting articles. The less at first was estimated at \$5.000, but aradually dwindled down to \$1,300, where it now remains. Capt. Weed of the Second Ward and his officers are envering to trace out the thieves, but there is little prospect of their succeeding. BURGLARY IN FULTON STREET.-The store of
